

Spending money, the UniConnect way.

Two tools handle every rupee: **Budget Proposals** to plan and get sign-off *before* an event, and **Petty Cash** to get a small advance now and settle it with the bill. This guide walks both, end to end.

BUDGET

Planning an event or activity? Use a **Budget Proposal** — list what you'll spend, get it approved, then run the event and report back with bills.

PETTY CASH

Need a small amount of cash right now (materials, refreshments, a quick purchase)? Raise a **Petty Cash** request, get it approved, receive the money, and submit the bill within 7 days.

GUIDE 01

Budget Proposals

Get money approved before you spend it — for a fest, a workshop, a celebration, any planned activity.

1

Draft & submit the proposal

Open **Budgeting → New Proposal**. Add a title, the line items you'll spend on, the estimated total, the proposed date, and attach any quotes or supporting files. Hit **Submit**.

● You — Proposer (PM / BOA) → SUBMITTED

2

Review

Reviewers open your proposal and check it. They can approve it, **Request Changes** (it comes back to you to edit and resubmit), or **Reject** it.

● CMA Manager · Reviewers

UNDER REVIEW

CHANGES REQUESTED

3

CMA approval (Level 1)

The **CMA Manager** (Pravalika) gives the first approval. What happens next depends on the amount — see the ₹10,000 rule below.

● CMA Manager – Pravalika

CMA APPROVED

4

Final approval

Once fully approved you'll be notified that you can **go ahead and run the event**. Procurement / spending can begin.

● Admin – Karthik (if ≥ ₹10,000)

APPROVED

5

After the event — report & bills

When the event is done, upload your **post-event report** and the **bills**. Reviewers check the outcome and close the proposal.

● You – Proposer

REPORT SUBMITTED

CLOSED

KEY RULE

The ₹10,000 line

Where a proposal ends depends on its estimated total:

Under ₹10,000

CMA approval (Pravalika) is **final**.
Procurement can proceed straight away
— no admin sign-off needed.

₹10,000 and above

Needs **Admin approval (Karthik)** on
top of CMA approval before the
proposal is fully approved.

REJECTED

Petty Cash

A small cash advance for an immediate need — approved in two steps, then settled with the bill.

1

Raise the request

Open **Petty Cash** → **New Request**. Enter the purpose, amount, category, when you need it by, and the linked activity. Submit it.

● You — Requester → AWAITING L1

2

Level 1 approval

Pravalika reviews the request and the event it's for. She approves it (or sends it back for changes / rejects it). Approving passes it up to Level 2.

● Level 1 — Pravalika → AWAITING L2

3

Level 2 approval (budget check)

Satish checks the budget and gives the **final approval**, confirming the approved amount. Only after this can money move.

● Level 2 — Satish → APPROVED

4

Disburse the money

Finance pays you and records it: the amount, the mode (UPI / NEFT / Cash), the UTR / reference, and an **uploaded proof** — the payment screenshot or the confirmation mail. This starts a **7-day bill deadline**.

● Finance — Sasi → DISBURSED

5

Submit your bill

Attach the bill(s) for what you actually spent — bill number, date, vendor, amount, and a photo or PDF. Do this within 7 days of getting the money.

● You — Requester → BILL SUBMITTED

6

Verify the bill

Finance checks the bill against the advance and marks it verified (or rejects an invalid one).

● Finance → BILL VERIFIED

7

Settle & close

Finance enters the **actual amount spent**. The system works out whether you **return** leftover cash or are owed a **top-up**, and closes it out.

● Finance → SETTLED

Two approvals, always in order

Petty cash needs **both** sign-offs: **Pravalika (Level 1)** first, then **Satish (Level 2)** for the budget check. The request only becomes payable after Level 2 — no one can skip a level, and the money is disbursed only once it reaches **APPROVED**.

REFERENCE

Who does what

The people each request passes through.

Requester / Proposer

PM • BOA • CAMPUS STAFF

Raises the petty-cash request or budget proposal, then submits the bill / post-event report.

Pravalika

LEVEL 1 • CMA MANAGER

First approver. For petty cash she gives Level 1 sign-off; for budget proposals she gives CMA approval.

Satish

LEVEL 2 • FACILITIES

Final petty-cash approver — checks the budget and clears the request for payment. Sees every campus.

Sasi & Finance

FACILITIES • FINANCE OPS

Pays out the money, records the disbursement with proof, verifies bills, and settles & closes.

Karthik

ADMIN

Approves budget proposals of ₹10,000 and above (the only ones that reach him).

QUESTIONS

Good to know

Budget Proposal or Petty Cash — which one? —

If you're **planning** an event and want the spend approved ahead of time, raise a **Budget Proposal**. If you need a **small amount of cash in hand now** and will bring back a bill, use **Petty Cash**. A large planned event goes through a budget proposal; a quick ₹1,000 purchase goes through petty cash.

Who approves my petty cash, and in what order? +

Satish said he'd pay me and send a confirmation mail — where does that go? +

What if I spend more or less than the advance? +

How long do I have to submit the bill? +

Why does the ₹10,000 line matter for budgets? +

I'm on the Facilities / finance team — why do I only see one campus?
